📄 Visisharp Advanced Eye Health Formula for Eyes Pills Visi Sharp Supplement ??

[VishiSharp](http://VishiSharp.com) is a brand new supplement on the market that claims to be able to slow down and reverse eyesight loss. It was developed by an optometrist with over 10 years experience in trying to reverse eyesight problems in patients who suffer from problems like macular degeneration, glaucoma, retinitis pigmentosa, and even presbyopia.

📄 How Does VisiSharp Work?

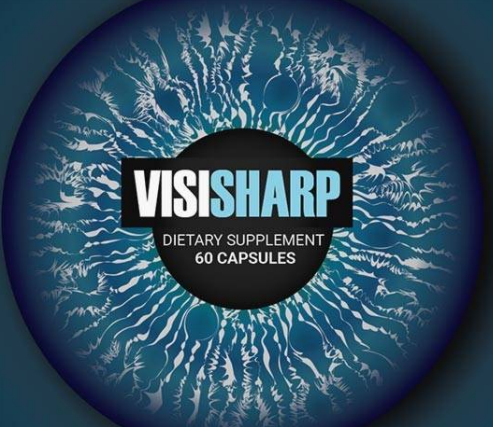

Suggested Use: As a dietary supplement take one (2) veggie capsules once a day. For best results take 20-30 min before a meal with an 8 oz. glass of water or as directed by your healthcare professional.

caution: Do not exceed recommended dose. Pregnant or nursing mothers, children under the age of 18, and individuals with a known medical condition should consult a physician before using this or any dietary supplement.

KEEP OUT OF REACH OF CHILDREN. DO NOT USE IF SAFETY SEAL IS DAMAGED OR MISSING. STORE IN A COOL, DRY PLACE.

VisiSharp contains a proprietary blend of antioxidant ingredients including lutein, zeaxanthin, and vitamins A, C, and E. These work together to support eye health.

Lutein is an important antioxidant that protects against UV damage and slows down macular degeneration (the leading cause of age-related vision loss). Zeaxanthin is another powerful carotenoid found in your eyes that also works with lutein to protect against free radical damage.

According to the official website, here are some of the [16 ingredients in VisiSharp](#) and their work.

✓☒ **Marigold flowers**

Marigold is a great addition to homemade eye drops because of its anti-inflammatory, anti-bacterial and antiviral properties. Marigold flowers help heal conjunctivitis, cataracts and glaucoma. Add five marigold petals in 1 cup water for 5 minutes. Allow to cool down, strain and then use as eye drops.

✓☒ **Quercetin**

A Study on Ocular Health and Its Effects on Glaucoma and Macular Degeneration: Quercetin is one of Visisharp's ingredients that helps increase blood flow to your eyes, improving overall eye health.

Zinc and Vitamin A

Studies show that zinc and vitamin A work together to decrease macular degeneration risk. Visisharp combines both these ingredients, in addition to fish oil, green tea extract, and other herbs and minerals.

✓☒ **Bilberry**

The berry is often referred to as Nature's Vision Supplement and has been used by people for centuries to treat eye problems. The fruit also contains anthocyanins and proanthocyanidins that are thought to reduce vision problems. The ability of bilberry fruit to protect eyesight may be due in part to its ability to lower cholesterol, reduce blood pressure, prevent cataracts, improve circulation and decrease oxidative stress.

✓☒ **Grape seed extract**

In one study, a group of mice that were fed supplemental grape seed extract for 5 months experienced an increase in numbers and size of photoreceptors in their retinas; some even recovered some vision. Additionally, an earlier study found that 100% grape seed extract (GSE) supplementation for 90 days improved macular microperimetry results as well as visual acuity in individuals with glaucoma. So what's going on here?

✓☒ **Taurine**

One vital component for a healthy eye is taurine. Taurine is an amino acid that's found in abundance in VisiSharp 2022, as well as other nutritional supplements designed to improve eyesight.

☒ Final Word

When I first started reviewing VisiSharp, I was concerned that my vision would become worse. However, as an eye health advocate, I felt obligated to take action. Since starting on VisiSharp two months ago, my eyesight has improved drastically. It's safe to say that when I stop taking VisiSharp at age 67, my eyesight will be better than most 20 year olds! The side effects were minimal: my eyes burned for about a week and had a fishy smell for two weeks.
