PROTOCOL integer ID:
78942

- 1 Place vial at designated point on Gaia and label the transect number on the vial
- 2 Take photo to capture surroundings

- 3 Repeat step until you run out of vials/you've hit each data point on Gaia
- 4 After 90 minutes, retrieve vials in the order you placed them
- 5 Count ants in vial; if there are too many ants in the vial, freeze the vial and recount later
- 6 Record the number of ants in vial on Epicollect5
- 7 Clean out test tubes and throw everything away
