### **What are the ingredients and formula included in Ocuprime?**

When it comes to supplements, the best way to know you are getting the best is by accessing the ingredients used to formulate the supplement. To show you a clear picture of what you are getting when you use this supplement, we will be sharing the Ocuprime Ingredients used to formulate this supplement.

- **Eyebright:**

This is a natural ingredient fortified with all that your eyes need to revive their health. With the scientific name Euphrasia Officinalis, this plant has been used for centuries to heal all kinds of serious eye conditions. Also, it is used to brighten the eyes and keep them healthy.

- **Quercetin:**

What we have here is another ingredient super-packed with powerful antioxidants that can gently rid of the free radicals in your eyes. When used, it helps to prevent the occurrence of cataracts.

- **Bilberry:**

With the name Vaccinium myrtillus, this is a popular fruit plant naturally fortified with all that you need to improve your vision and increase the flow of blood to your eyes. This allows you to have a ready supply of oxygen to the cells in your eyes.

- **Lycopene:**

This is a natural ingredient that provides your body with a lot of health benefits. When used, it reduces the formation of cataracts and degeneration of your eye cells. With this, there is a reduction in the risk of blindness in older adults.

#### ■ Magnesium:

In the form of Magnesium oxide, this is a powerful ingredient with all that you can ask for. In combination with other ingredients in this supplement, it facilitates ocular blood flow in the eyes. With this, you will be able to prevent oxidative stress in retinal ganglion cells. ☺

#### ■ Rutin:

This is an ingredient that helps to strengthen the blood vessels in the eyes and regulate the flow of blood in the connective tissues of the eyes. Also, it put measures in place that helps to protect the blood vessels from diseases.

#### ■ Grape Seed:

This ingredient plays a significant role in the eyes. When used, it reduces the development of macular degeneration in the eyes and provides measures that help to prevent all kinds of eye diseases.

#### ■ Zeaxanthin & Lutein:

This is a unique antioxidant that provides all that your eyes need to safeguard your retinal from high-energy blue light and free radicals that damage the eye cells.
