GUIDELINES

This protocol will be used to research the satisfaction index of patients undergoing total knee arthroplasty in a university hospital. The entire interview will be conducted over the phone and no risk or expense will be imposed on the packages. The research may guide possible improvements to the assistance service offered at the university.

MATERIALS TEXT

We will interview, by telephone, all patients who underwent total knee arthroplasty at Hospital Universitário Pedro Ernesto in 2020,

SAFETY WARNINGS

The entire interview will be conducted over the phone and no risk or expense will be imposed on the packages.

- 1 To raise the files of all patients who underwent total knee arthroplasty at the Pedro Ernesto University Hospital in 2020.
- 2 Make telephone contact and explain the content and importance of the research to improve the quality of assistance
- 3 Conduct the interview with nine questions for patients who agree to participate.
- 4 Compile the data.
