BEFORE START

Start your lab on Wednesday November 4th with Protocol 1: Making Agar Plates. You ought to pour your plates on that Wednesday and streak your plate later that day or the following morning. You should then perform Protocol 2: CRISPR Transformation once you see bacterial growth on your plate. After the transformation is complete, perform Protocol 3: Antibiotic Resistance.

DISCLAIMER:

DISCLAIMER – FOR INFORMATIONAL PURPOSES ONLY; USE AT YOUR OWN RISK

The protocol content here is for informational purposes only and does not constitute legal, medical, clinical, or safety advice, or otherwise; content added to protocols.io is not peer reviewed and may not have undergone a formal approval of any kind.
