This is the reason it is so important to include heart healthy foods in your diet.

**Liberty CBD Gummy Bears** are known for their high antioxidant content. They contain a very rich concentration of the potent antioxidant, lycopene which is the red pigment in tomatoes. Lycopene has the ability to neutralize free radicals that can damage cells in the body. Lycopene excels as the most effective antioxidant promoter of heart health. Lycopene may have specific properties that enable it to protect cells in a way other antioxidants may not. Sufficient levels of lycopene have been shown to lessen the chances of those suffering an ischemic stroke. This type of stroke is caused by a blood clot and it is the most common type of stroke. Tomatoes also contain phytonutrients which support heart health. Additionally, they also contain high amounts of vitamin C, potassium, iron, manganese, beta-carotene and vitamin E.

Those seeking to reduce their chances of having a heart attack or stroke should include tomatoes or tomato products in their diets on a daily basis or at least several times each week. Choose from a wide variety of fresh tomatoes. canned tomatoes, tomato juice, tomato sauces, sundried tomatoes and other varieties of tomato products. You can see that by simply choosing to eat heart healthy foods such as tomatoes on a regular basis you can significantly reduce your risk of having a heart attack or stroke. This is the reason it is so important to include heart healthy foods in your diet.
