MATERIALS

NAME ▾	CATALOG # ▾	VENDOR ▾
T4 DNA Ligase - 100,000 units	M0202L	New England Biolabs
T4 Polynucleotide Kinase - 2,500 units	M0201L	New England Biolabs

MATERIALS TEXT

Prepare DNA Fragment

- 1 Amplify target DNA fragment using high-fidelity DNA polymerase for blunt end fragment
- 2 Purify DNA using gel extraction

Phosphorylation of Recovered DNA

3

Ligation
